**ZONA MACO | Booth E-210**  
**February 3rd - 7th, 2016**

Cristin Tierney Gallery is thrilled to be presenting at **ZONA MACO** in Mexico City. Visit us in **Booth E-210** from February 3rd through the 7th, where we will showcase contemporary artworks that deliberately restrict themselves to black and white. This limited palette is not only a key formal element, but also a connection to a broader history of visual culture, which includes mid-century photograph, media, and advertising, Old Master grisaille traditions, and more. Participating artists include Peter Campus, Alois Kronschlaeger, Jennifer Marman and Daniel Borins, and Francisco Ugarte.
